

# “AI Content Organizer Pro”

## User Manual

### THE FOLLOWING TERMS AND CONDITIONS APPLY:

While all attempts have been made to verify information provided, neither I, nor any ancillary party, assumes any responsibility for errors, omissions, or contradictory interpretation of the subject matter herein.

As the FTC Rules requires, we do not guarantee or imply that by using this tool, you will get rich or make money at all.

Software and associated files is distributed as is without any warranty of any kind, either express or implied.

## Quick Software Overview

“AI Content Organizer” is a Windows software that allows you to better organize your A.I. Generated software.

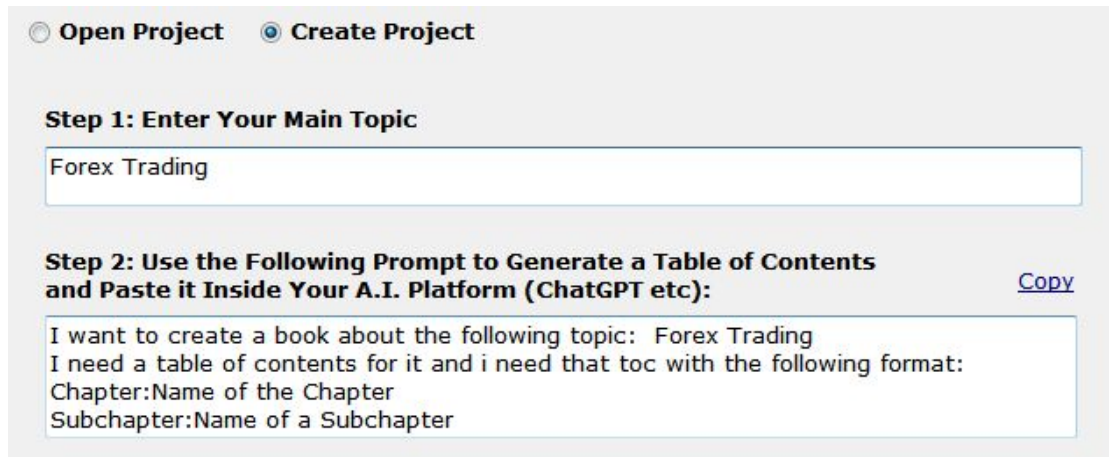

For example, if you’re creating a book and have a “Table of Contents”, it allows you to better organize everything with a “Tree View” structure.

# Getting Started

To get started, you'll need to create a project (your first project).

First, enter your main topic. For example, if you want to create a book about "Forex Trading" then enter "Forex Trading" as your main topic.

The screenshot shows a web interface for creating a project. At the top, there are two radio buttons: 'Open Project' and 'Create Project', with 'Create Project' selected. Below this, 'Step 1: Enter Your Main Topic' has a text input field containing 'Forex Trading'. 'Step 2: Use the Following Prompt to Generate a Table of Contents and Paste it Inside Your A.I. Platform (ChatGPT etc):' includes a 'Copy' link and a text area containing a prompt template: 'I want to create a book about the following topic: Forex Trading', 'I need a table of contents for it and i need that toc with the following format:', 'Chapter:Name of the Chapter', and 'Subchapter:Name of a Subchapter'.

While you enter your main topic, the software will generate a prompt (step #2). You need to copy that prompt (can use the "copy" link) and paste it inside a ChatGPT prompt.

That will generate results.

Once that you get the results, you need to select the lines that start with

**Chapter:**

and

**Subchapter:**

Example:

*Chapter: Introduction to Forex Trading Strategies*

*Subchapter: Understanding Forex Trading*

*Subchapter: Importance of Having a Strategy*

*Subchapter: How to Choose the Right Strategy*

*Chapter: Fundamental Analysis Strategies*

*Subchapter: Trading the News*

*Subchapter: Economic Indicators and Their Impact*

## *Subchapter: Long-Term vs. Short-Term Fundamental Strategies*

Copy those lines and paste them inside the (“Step #3) section:

### **Step 3: Paste the Content That You Get From Your A.I. Tool Below** [Paste Results](#)

Important: In ChatGPT, don't use the "Copy" link. Instead, select the generated Table of Content and manually copy it to the clipboard. Please read the user manual for more details.

Chapter: Introduction to Forex Trading Strategies  
Subchapter: Understanding Forex Trading  
Subchapter: Importance of Having a Strategy  
Subchapter: How to Choose the Right Strategy

**Important:**

Copy and paste those lines only (no other text).

*If you need to add more content (for example, more subchapters),  
you can do it now.*

Then enter a name for the project and click “Create Project”.

**Step 4: Enter a Name For This Project:**

Forex Book

Create Project

### **Pro Version**

In the “Pro” version (which you already have), you can use the following link to create a project from a “Public Domain Title” (instead of entering a topic).

☐ Open Project ☒ Create Project

Step 1: Enter Your Main Topic

[Create Sequel For Public Domain Title](#)

After clicking this option, you'll be able to select a title and a built-in prompt...

## Create Sequel For Public Domain Title

### Select Title:

Dracula By Bram Stoker

Dracula's Resurrection: Dracula returns from the dead, seeking revenge and new victims.  
Mina's Redemption: Mina Harker grapples with her past trauma and seeks to rid the world of van  
Van Helsing's Legacy: Professor Van Helsing's descendants continue his work hunting supernatural  
The Curse of Dracula: A curse linked to Dracula's bloodline threatens to spread darkness across  
Jonathan's Journal: Jonathan Harker's unpublished journals reveal new encounters with the supernatural  
**The New Order of Dracula: A secret society dedicated to eradicating vampires emerges.**  
Lucy's Return: Lucy Westenra returns as a vampire seeking to reclaim her former life.  
The Hunt for Dracula: A global pursuit to track down Dracula's remaining allies and followers.  
Renfield's Revenge: Renfield escapes confinement and becomes a formidable vampire hunter.

### Create Sequel For:

"Dracula By Bram Stoker". The sequel describes The New Order of Dracula: A secret society dedicated to eradicating vampires emerges.

Use

Cancel

After selecting a prompt, click "Use" and that help you to create your product based on it.

# Main Screen Overview

After creating your project, you'll see a screen like this...

The screenshot shows a web application interface for managing a book project. On the left is a 'Table of Contents' sidebar with a tree structure of folders and files. The main area on the right contains form fields for 'Main Topic', 'Chapter', and 'Sub-Chapter', all of which are populated. Below these fields is a 'Content Creation Prompt' and a 'Content' input area with 'Copy' and 'Paste' buttons.

**Table of Contents:** [Project Manager](#)

- Introduction to Forex Trading Strategies
  - Understanding Forex Trading
